Summary

● I'm a dedicated software engineer-in-training with the innovative and creative mindset of an entrepreneur. I am learning how to make great web applications with Java, Maven, Spring, Spring Boot, Hibernate, MySQL, Git, Software Development, Object-Oriented Programming (OOP), Core Java, PostgreSQL, Linux.

● I have 6+years of experience in Team Leading in 4 different industries. I take leave due family reasons and learning new skills, so I will be ready in next 2 months to revamp my career.

● I love the battle of developing an idea into existence, and forging the bridge between conceptualization and a tangible, impactful product. Programming has been my outlet for problem-solving and creative expression.

Experience

Production Specialist
INKO

Jul 2021 - Dec 2021 (6 months)
● Implemented ISO standard 9001, 14001 and 45001 in manufacturing
